

Our Contribution to a Cleaner Environment

- sack holders with plastic or metal lids
- recycling containers for separating waste
- compact units for indoor or outdoor use
- sack holders, stainless steel
- waste collectors, plastic
- combination units:
ash-stand/waste collectors as wall model or free-standing unit
- ash-stand with galvanised sieve
- drum storage units with spillage containment sumps for Hazard Classes A1, A2, A3 and B in accordance with WHG § 19h, design-tested, TÜV monitored
- hinged-bottom container

DIN EN ISO 9001:2000

Certified Company

1 Sack Holder

- powder-coated or galvanised
- for 1 or 2 sacks
- plastic or metal lid
- free-standing or mobile unit (2 or 4 rollers) or as wall unit
- with clamping ring for fastening sacks
- for 120-litre waste sacks - plastic or paper

6 Sack Stands

- steel, completely hot-galvanised
- detachable bottom
- stackable
- plastic or metal lid
- mobile or free-standing unit
- clamping ring for fixing 120-litre plastic or paper sacks

2 Sack Holder for Recyclable Materials "Grey Series"

- powder-coated grey (RAL 7032)
- for 1 or 3 sacks with plastic lids (silver, blue, yellow) and clamping ring for fastening sacks
- free-standing or mobile unit (2 or 4 rollers) or as wall unit

7 Recycling Centre

- galvanised steel
- powder-coated (8 shades)
- odor-restraining flap
- inside liner bin galvanised steel

3 Plastic Basket Containers

- weather-proof recyclable polyethylene
- with plastic ring and clamping ring
- for 120-litre sacks
- accessories: - 5 rollers
- foot pedal operation

8 Recycling Centre

- galvanised steel
- powder-coated
- odor-restraining flap
- inside liner bin galvanised steel

4 Compact Units

- galvanised steel, powder-coated
- clamping ring for fixing sacks
- plastic or metal lid
- without door, single-door or double-door
- for inside and outside use
- for 60-70 litre or 120-litre sacks

9 Waste Collector - Fire-resistant

- galvanised steel
- powder-coated
- special liner bin
- TÜV tested
- for 60-70 litre plastic sacks

5 Steel Wool Containers and Waste Containers

- galvanised steel, powder-coated
- waste container with liner bin
- steel wool container with swing lid, flame-resistant, waste container - 2 opposite flaps
- 2 handles

10 Wire Mesh Baskets

- steel wire with solid base and 4 sturdy round iron feet, completely hot-galvanised
- upper parts powder-coated or galvanised - as clamp for fixing waste sacks

1 Sturdy Ash-stands with plastic insert for cigarette extinguishing sand

- steel - powder-coated or as special steel design
- insert for reducing sand
- galvanised sieve for cigarette butts

6 Wall-mounted Ash-trays

- steel - powder-coated

2 Combined Ash-stand and Waste Container

- galvanised steel plate with solid base - powder-coated
- openings for depositing waste
- steel ash-tray insert for filling sand, black powder-coated, galvanised sieve for cigarette butts

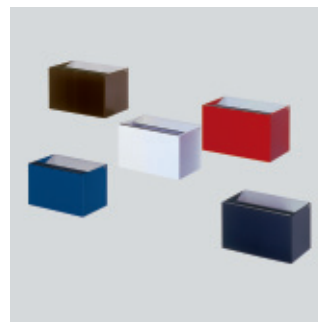

7 Combination Ash-stand/Waste Container with 4 openings

- galvanised steel with solid floor - powder-coated
- 4 openings for depositing waste
- steel ash-stand insert tray - black coated
- galvanised sieve for cigarette butts

3 Stainless-Steel Series

- units and liners, stainless-steel
- waste containers with liner bin
- as combination ash-stand/waste container, (free-standing or wall mounted) with insert trays
- free-standing or wall-mounted

8 Wall-mounted Ash-trays

- galvanised steel - powder-coated
- stainless-steel outer covers
- inside liner, galvanised steel
- wall mountings

4 Combination Ash-stand/Waste Collector

- galvanised steel - powder-coated
- stainless-steel outer covers and flap
- free-standing or wall mounted with attachment materials
- inside bin, galvanised steel

9 Paperbasket

- flame retardant
- steel, powder-coated (4 shades)
- stainless steel
- 15-200 ltr.

5 Tubular Stand Waste Container (for outside use)

- steel, powder-coated or completely hot-galvanised
- waste container with hood, ash-stand insert with galvanised sieve for cigarette butts
- anti-theft closure via square-headed key
- accessories: bicycle stand attachments

10 Combination Ash-stand / Waste Collector with Hood (for outside use)

- galvanised steel - powder-coated
- 3 openings for depositing waste
- ash-stand insert, steel black coated
- anti-theft closure via square-headed key
- free-standing frame, completely hot-galvanised
- galvanised sieve for cigarette butts

1 Large Containers for Dustbins

- galvanised steel
- powder-coated grey (RAL 7032) or green (RAL 6001) for 120-litre box only
- odour-reducing flap
- lockable via square-headed key
- plastic container for large bins for 120 l or 240 l.
- accessories: hot-galvanised steel frame

6 Cupboard-type Box

- galvanised steel
- powder-coated grey (RAL 7032)
- lockable via padlock (not supplied)
- for 120-litre large plastic dustbins
- accessories:
 - free-standing frame, hot-galvanised
 - attachment for plastic sacks hot-galvanised

2 Drum Storage Unit with Spillage Containment Sump for 1, 2, 4, 8 or 10 drums @ 200 l

- for Hazard Classes A I, A II, A III or B.
- design-tested
- TÜV quality-controlled
- powder-coated orange or hot-galvanised
- hot galvanised mesh

7 Depot for gas bottles

- steel
- powder-coated or galvanised
- stationarily or mobile

3 Mobile Drum Storage Unit with Spillage Containment Sump for 1, or 2 drums @ 200

- as 2
- with 2 brake rollers and 2 free-moving rollers
- accessories: retention strut, draining plate (Hazard Class A III, sump container, galvanised)

8 Drum Storage Unit with Spillage Containment Sump, stackable

- as 2, however, for 1, 2 or 4 drums @ 200 litres
- stackable to a height of 3
- further models
 - with 3 wire walls
 - with 3 steel walls (Hazard Class A III)

4 Stracking Frame Storage Unit for Plastic Containers

- drum storage unit as in 2
- shelf unit (load 250kg) and shelf plates, steel, orange powder-coated
- for plastic canisters of 5 - 70 litres

9 Drum Storage Unit with Stackable Frame, with Slide-in Trays or Sumps

- Slide-in trays galvanised steel. Sumps as 2
- drum storage unit for 1 or 2 x 200 litres or 3 x 50/60 litre drums
- orange powder-coated or hot-galvanised
- optimum use of frame or assembly in factory
- can be combined to suit almost all uses

5 Waste Unit with Bottom Flap

- steel blue (RAL 5010), varnished or hot-galvanised
- flap opens and closes automatically
- stackable up to a height of 4
- capacity 500 to 2000 l
- accessories:
 - centering walls for floor flap
 - wheel fittings (not stackable)
 - lid (not stackable)
 - manual remote operation
